Want long-lasting yet immediately reversible contraception?  
Unhappy taking hormones long-term?

**A Copper Intra Uterine Device (Copper-IUD) is the ideal choice**

**"Fit and Forget"** contraception that is **more effective** than the pill and lasts up to 10 years!

Almost **all women** of **all ages** can have a Copper-IUD fitted - whether they have had children or not.

**A Copper-IUD is smaller than you think!**  
The arms fold-in to be **narrower** than a drinking straw during fitting, and once in place the arms open out **smaller** than a 50p coin.

Please ask us for details
