Anaesthetic and Oxygen Therapy equipment

**Anaesthetic Equipment**

- **Anaesthetic machine for piped or cylinder gases (O2 and N2O)**
  
  With single halothane vaporiser. Fittings for 2x O2 and 1x N2O pin-index cylinders (cylinders not included). With audible oxygen failure alarm, nitrous oxide cut-off, oxygen flush, auxiliary oxygen outlet, O2 and N2O pipeline hoses.

- **Anaesthetic Machine/Ventilator System, ‘Glostavent’**

  Provides a complete stand-alone system in one trolley-mounted unit. Comprises ventilator, draw-over anaesthesia system (halothane), oxygen concentrator and air compressor. Designed for use in difficult environments. Uses air as driving gas - does not require use of nitrous oxide, and uses less oxygen than with a conventional anaesthetic trolley. Can continue to operate when either electricity or oxygen supply fails. Suitable for use as an anaesthetic machine or as a ventilator. Economical to run and easy to maintain. Further details on request.

- **Anaesthetic unit ‘EMO’ for use with ether**

  Draw-over type. Comprises: EMO ether inhaler, Oxford inflating bellows, breathing hoses 30cm (12”) and 105cm (42”), facemask size 3, head harness and all connectors and fittings required. Available in storage/carrying case or on mobile trolley:

  - **Field/portable outfit in carrying case**
  - **Hospital outfit with mobile trolley**

  Also available:

  - **EMO paediatric outfit**
    
    Comprises Ayres tee piece kit, swept bend connectors, sizes 3 - 8, Rendell-Baker facemask size 1 - 2.

  - **EMO tool kit**
    
    Includes spring dowel removal tool, filler removal tool, rotor removal tool, box spanner 2BA, setting gauge, hex key 3/32”, AF and hex key 1/16” AF.

  - **Vaporiser ‘OMV 50’, draw-over, calibrated for Halothane**
    
    Suitable for use with the EMO portable anaesthetic unit. Also available:

    - **OMV tool kit includes setting gauge, drain plug key and draw screw**
    - **Vaporiser OMV free-standing unit ‘OMV Triservice’**

  - **Ventilator, Manley Multivent ‘O’ model**
    
    Suitable for use with anaesthetic machine or as stand-alone unit. Operates from 88 - 264V AC with 12V DC battery back-up facility. Includes basic breathing circuit, bullnose oxygen cylinder adaptor, drive hose and manual (non-ether compatible).

</table>
Recording paper 50mm wide for former model EM031L (Autoruler 12/1) . . . . . . . . . EM03101L
10 rolls.

Electrocardiograph 3-channel interpretive P80 . . . . . . . . . . . . . . . . . . . . . . . . . . . . EM03111L
Portable, mains/rechargeable battery operation, with automated 12-lead analysis. Complete with 10-lead patient cable, 4 limb clamp electrodes, 6 suction chest electrodes, 10 packs chart paper, ECG gel, carrying case and user’s manual. Also available (order separately):

Recording paper 90mm wide for EM03111L (P80), 10 packs . . . . . . . . . . . . . . . . . . . . . EM03110L

Electrocardiograph 12-channel interpretive hospital type . . . . . . . . . . . . . . . . . . . . . EM03112L
Portable, mains/rechargeable battery operation. A4 size recording paper, can simultaneously acquire and print 3, 6 or 12 channels, with automated measurements and interpretation. Complete with 10-lead patient cable, 4 limb clamp electrodes, 6 suction chest electrodes, 10 packs chart paper, ECG gel, carrying case and user’s manual. Also available (order separately):

Recording paper A4 size for EM03112L, 10 packs . . . . . . . . . . . . . . . . . . . . . . . . . . . . . EM03113L

Monitor, cardiac (ECG), LP10/B . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . EM030L
Portable, single-channel, mains/rechargeable battery operation, 80 x 100mm screen with waveform and heart rate display. Leads I, II and III monitored, with high/low rate alarms. Supplied with 3-lead patient cable.

Monitor Patient SC750 ECG/NIBP/SpO2/TEMP/RESP, colour display . . . . . . . . . . . . EM06712L
Compact/portable monitor, mains/int.battery operation. LCD display size 26cm diag. Includes 3-lead ECG cable, adult finger-type SpO2 (pulse oximeter) sensor, adult and paediatric NIBP cuffs, skin temperature sensor and rectal/oesophageal temperature sensor.

Monitor, blood pressure, non-invasive, adult/child/neonatal . . . . . . . . . . . . . . . EM069L
Portable, 100 - 250V AC and rechargeable battery operation. Fully automatic, with alarms. Measures systolic, diastolic and mean arterial pressure, also pulse rate. Manual or automatic (periodic) measurement for continuous monitoring. Supplied with adult, child and neonatal cuffs.

Pulse oximeter MP1, hand-held, rechargeable battery operation . . . . . . . . . . . . . . EO080P
Provides continuous measurement and display of oxygen saturation and pulse rate, with large LED display and audible alarms. Supplied with reusable adult finger sensor, 230V AC charger, IV pole attachment, desk stand and protective cover.

Pulse oximeter, portable, 230V AC and rechargeable battery operation . . . . . . . . . . . . EO220L
Displays oxygen saturation and pulse rate with bargraph display of pulse strength, and audible and visual alarms. Supplied with reusable adult finger sensor.

Vascular blood flow detector (doppler), hand-held, with 5.4MHz transducer . . . . . . . . EA040L
For diagnosis of arterial and venous problems and peripheral vascular disease. Uses PP3-size battery (included - for spares see ET264P). For rechargeable battery operation see ET272P and ET272L in section 5.7.

For ultrasound scanners for cardiology see section 5.15.2
5.3 Dental equipment

**Amalgam mixer, capsule type, 230V AC operation**
Order code EH040L

**Amalgam mixer, powder type, 230V AC operation**
Order code EH04001S

**Chair, dental, portable, folding, with light and spittoon**
Order code EH06303L

Adjustable from sitting position to fully supine with extendable leg rest and three seat height positions. In carrying bag.

**Dental unit, mobile, for field use**
Order code EH073L

Self contained pack comprising fixed height mobile stand with integral 0.25 HP air compressor and turbine unit. Features: manual control system for two handpieces, individual handpiece, straight handpiece, contra-angle handpiece, pressure water coolant adjustments, handpiece air coolant adjustment, handpiece and system pressure gauges, air motor, 3 in 1 syringe, handpiece tubing straight, 2 position instrument holders, two each Wet/Dry foot control with 155cm (5') of tubing, air filter-regulator with moisture separator, air supply quick disconnect, clean water system with 500mL bottle, washable tray holder pad, instrument tray. A portable version is also available - details on request.

**Dental unit, complete system, for hospital use**
Order code EH077L

Comprising foot operated dental chair, with easy-clean upholstery and adjustable headrest; operating ‘cool’ light, with 12V 55W bulb; delivery system complete with 3-in-1 syringe air motor, slow speed contra-angle handpiece, air turbine handpiece, with automatic handpiece selection and wipe-clean surface; chair-mounted spittoon complete with tumbler filler, spittoon flush, spittoon bowl, saliva ejector and high-speed suction; dentist’s stool; air compressor.

5.4 Electrosurgical equipment

**Cautery unit, portable/cordless**
Order code EP00901L

Complete with mains charger and battery. Supplied with puncture point, ring cutter, straight cutter and coagulation ball burners.

**Cautery set heavy duty**
Order code EP008P

Comprises transformer, pistol handle and burners 230V AC operation. Supplied with 6 heavy-duty cautery burners and soft carrying case.

**Diathermy/electrosurgical unit table-top**
Order code EP00310S

Monopolar/bipolar. Monopolar cut output 375W max. plus coag and blend with spray coagulation. Bipolar cut output 90W max. / bipolar coag. 80W max. All outputs adjustable via simple rotary controls with LED display of power level. Supplied with accessories including reusable finger switch handle, 5x disposable finger switch handle, 3x blade electrodes, 3x ball electrode, 3x needle electrode, 3x long blade electrode, disposable neutral plate electrode, cable for disposable plate electrode, double footswitch.

For additional electrosurgical accessories see section 2.8
## Endoscopic equipment

### Rigid (Fibre-lit) instruments and Accessories

All rigid fibre-lit instruments must be used in conjunction with a suitable light source and fibre-optic cable - see EC04001L and EC04020L below:

5.5.1 Rigid (Fibre-lit) Instruments and Accessories continued

Rectal surgery

**Sigmoidoscope, Lloyd Davis, fibre lit, adult and child**

With adult tube and pilot 30 x 2cm, child tube and pilot 25 x 1.5cm,
fibre light head with back cap and bellows. Supplied with case and medium
Naunton Morgan proctoscope.

**ED021L**

**Sigmoidoscope, operating, Lloyd Davis, fibre lit, 2 tube set**

With pilots 20 x 2.8cm and 15 x 2.8cm, supplied in case with suction tube
and handle, smoke tube and double bellows.

**ED02001L**

Accessories for rigid instruments

**Light source, fibre optic, 240V AC.**

With two outputs. Only one may be used at a time.

**EC04001L**

**Fibre optic cable, for use with fibre-lit instruments.**

If not ordering together with light source and instrument, please specify
fitting required at light source and instrument ends of cable.

**EC04020L**

Bronchoscope, Colonoscope, Duodenoscope, Gastroscope, Sigmoidoscope etc.
Please specify your requirements, i.e. application, adult or child, examination
or operating.

**EC03701L**

Light source Olympus CLK-4, for Olympus flexible endoscopes

Water container and spare halogen bulb included. 230V 50Hz operation.

**EC03701L**

Endoscopic suction pump, suitable for use with flexible endoscopes

Also suitable for minor surgery/emergency applications. With 1L suction
bottle and suction catheter. 230V AC.

**EC04102L**

5.6 Infusion devices and Nebulisers

5.6.1 Infusion devices

**Infusion pump volumetric Argus 707V, 230V AC/rechargeable**

Battery operation. Suitable for adult/paediatric/neonatal use, also for blood
transfusions or enteral feeding. Infusion rate 0.1 - 999.9ml/hr, volume
0.1 - 999.9ml, time 1min - 99hrs 59mins. Programmable infusion rate and
volume, plus volume/time function (pump calculates flow rate). With bolus
delivery and KVO (keep vein open) functions. Large LED display of flow
rate/infused vol/vol to be infused/vol balance/infusion time/remaining time.
With alarms. Compatible with universal-type infusion sets.

**EN05515L**
DURBIN MEDICAL SUPPLY CATALOGUE

New Major equipment 107

Prices on application. Please email cataloguesales@durbin.co.uk or call +44 (0)20 8660 2220 for a quotation.

Order code

IV administration set suitable for Infusion Pump EN05505L VO/P. Pack of 100. EN05507L

Syringe driver 3100, variable speed for continuous infusion. Suitable for ward or intensive care use. Flow rate 0.1 - 199.9 mL/hr. 230V AC operation with rechargeable battery back-up. Uses 20, 30 or 50/60mL Luer-lock syringes. Order giving sets and syringes separately: EN05402L

Syringe, Luer-lock, 50/60mL, pack of 60. IV Infusion set 150cm, suitable for syringe driver EN05402L, pack of 50. ES211P EN05403L

Nebulisers 5.6.2

Nebuliser portable mains/rechargeable battery/12V DC operation. Includes mains charger, reusable drug chamber, mouthpiece and tubing, adult & child masks, carrying case. Charger operates from 110 - 250V AC, battery capacity approx. 45mins or 1 day’s treatment. Can also be charged/powered by 12V car battery. EO102P

Nebuliser Turboneb portable, high-flow hospital type, mains operation. Flow rate 10.5L/min. Supplied without accessories, order separately: Adult mask set, with nebuliser chamber and tubing, pack of 25. Paediatric mask set, with nebuliser chamber and tubing, pack of 25. EO106S EO47005S EO47006S

Maternity and Neonatal equipment 5.7

Foetal heart detector (doppler), hand-held, battery operated. With 2MHz transducer. Includes storage/carrying case, tube of ultrasound gel and battery (PP3-size). For rechargeable battery operation, order rechargeable battery and charger separately (see ET272P/ET272L below). NB: This unit provides audible indication only and does not have display of foetal heart rate. EF08301P

Battery, PP3 size, non-rechargeable alkaline. Suitable for use with EF083P/EF08301L ET264P

Battery, PP3 size, rechargeable NiCad/NiMH. Suitable for use with EF083P/EF08301L ET272P

Battery charger, 230V AC. Suitable for charging 1 PP3, 4 ‘AAA’ or ‘AA’ size Nickel Cadmium (Ni-Cad) and Nickel Metal Hydride (NiMH) batteries. (UK style plug). ET27201L

Prices on application. Please email cataloguesales@durbin.co.uk or call +44 (0)20 8660 2220 for a quotation.
5.7 Maternity and Neonatal equipment continued

Foetal monitor with chart recorder, 220 - 240V AC operation. Antepartum model monitors foetal heart rate (FHR) and contractions. Intrapartum model also offers foetal ECG (FECG) monitoring. Supplied with chart paper, transducers, ultrasound gel and operation manual.

Antepartum monitor .................................................. EF085L
Intrapartum monitor .................................................. EF08501L

Incubator, infant, mains operation, with air temperature control mode .......... EF117L
Single-wall canopy with large front access flap and 6 access ports.
On fixed-height mobile base.

Phototherapy unit, mobile, for treatment of neonatal jaundice ................. EF12902L
230V AC operation, for use over incubator or cot etc.
Fitted with 6 x 20W bili-blue fluorescent tubes.

For ultrasound scanners see section 5.15.2

5.8 Ophthalmic equipment

Frame, trial, Dixey (reduced aperture) .................................................. EK08501L
Lenses, trial, small aperture set, Taylor .................................................. EK077L
52 lenses, 2 occluders 2 pinholes with metal surround, range 0.25 - 10.0D.
Complete in case.

Microscope, operating, ophthalmic, clamps directly to operating table ...... EK129L
Binocular, standard zoom magnification 4x - 17.5x. For extracapsular cataract and intraocular lens implantation as well as a wide range of general ophthalmic procedures. Portable, in aluminium transit case. Suitable for use in a wide range of environments. 110 - 120 / 220 - 240V AC and 12V DC battery operation.

Retinoscope, streak halogen 2.8V aperture mirror in case .................... EK09502L
Slit lamp, table-top, SL-16 Haag-Streit type optics, 230V AC operation ...... EK07502L
Slit width 0 - 12mm, slit length 1.8 - 12mm. Maximum magnification 16x (25x with optional 16x eyepieces), Complete with 10x eyepieces, fixation lamp and filters (blue, red, heat-absorbing and neutral density).

Mobile table/stand .................................................. EK07503L
Tonometer, Goldmann, applanation type, suitable for SL-16 slit lamp ....... EK07501L
Tonometer, Schiotz, with weights, standardised model ......................... EK102P

For additional Ophthalmic items see section 3.6
Physiotherapy equipment

Order code

**Interferential therapy unit 955B portable, 2 & 4-pole**
Mains/battery operation. 2/4/8kHz, 0 - 100mA peak current, 0 - 70 / 140V peak voltage, with 10 programs. Includes patient lead, 4 rubber electrodes, 4 sponge covers and 2 stretch bandages.

**Infra-red lamp, twin 250W lampheads (‘Anglepoise’ type) on floor stand**
Adjustable height and adjustable intensity. 230V AC.

**Muscle stimulator 965B, portable, mains/battery operation**
With interferential, faradic, Russian, diadynamic, TENS, sinusoidal, galvanic, interrupted galvanic, Trabert and Medi-Wave stimulation modes. Includes patient lead, 4 rubber electrodes, 4 sponge electrodes and 2 stretch bandages.

**Shortwave therapy unit, portable, pulsed with carrying case**
Body-mounted applicator with elasticated straps. Variable peak output power (50W max), pulse repetition rate: 5 - 400Hz, pulse width: 20 - 400us.

**TENS nerve stimulator for use in acute/chronic pain**
Dual-channel, variable pulse width and rate, burst, modulated and constant modes. With removable belt clip, electrodes, gel and carrying case.

**Ultrasound therapy unit, Therasonic 355B**
With 1MHz transducer 5cm² treatment head. Mains/battery operation. With 1 bottle of coupling medium (180ml).

Sterilisation and Disinfection equipment

Order code

**Autoclaves**

**Autoclave bench-top SES2000 pressurised steam type, 220V AC**
For sterilising instruments and autoclavable rubber and plastic (not suitable for sterilising porous loads). With 3 trays. Temperature cycle 134°C for 3 - 5mins or 121°C for 15mins, with drying cycle. Chamber dims. 20cm dia. x 35cm depth.

**Autoclave bench-top Melag 23V-S, Class S vacuum type**
22 litre capacity, chamber dimensions 25cm dia. x 45cm depth. Accomodates up to 6 sterilisation trays (3 trays included). Sterilises at 121°C or 134°C, with simple program selection, pulsed flow and final drying function. Interface for PC/printer. 230V AC, 3kW.

**Autoclave vertical HP vacuum dry IDEN, capacity 90L**
Internal dimensions: dia. 41cm x height 61cm (16" x 24"). Complete with 3 drums: 1 x dia. 39cm x height 29cm (15.5" x 11.5"), 2 x dia. 39cm x height 14cm (15.5" x 5.5"). Suitable for sterilising dressings and instruments. 220/240V 35A/7kW single-phase operation, 3-phase version available on request. Also available (order separately):

**Gasket for IDEN autoclave**
5.10.1 Autoclaves continued

Autoclave, portable, capacity 20L, electric (220-240V AC 2.4kW) operation
With low water cut-out and simmer control. Removable lid with pressure gauge and release valve. Supplied with perforated s/s plate. Takes 1 drum 24 x 24cm (9.5” x 9.5”) Drum not included - see ET143L.

Autoclave, portable, capacity 20L, non-electric version
With stand and kerosene primus stove. Removable lid with pressure gauge and release valve. Takes 1 drum 24 x 24cm (9.5” x 9.5”). Drum not included - see ET143L.

Also available:
Hotplate, electric, 230V AC, suitable for use with EZ03601P
Gasket/rubber seal

Autoclave, portable, vertical type, top-loading. Removable lid with pressure gauge and release valve. Includes aluminium inner container with rack and s/s internal stand.

Electric (240V AC) operation, thermostatic control
Capacity 24L, takes 1 drum max. size 29cm dia. x 19cm height (11.5” x 7.5”).
Capacity 39L, takes 1 drum max. size 34cm dia. x 24cm height (13.5” x 9.5”).

Non-electric version, for use with kerosene stove or hotplate:
Capacity 14L, takes 1 drum max. size 29cm dia. x 14.5 cm height (11.5” x 5.75”)
Capacity 24L, takes 1 drum max. size 29cm dia. x 24cm height (11.5” x 9.5”).
Capacity 39L, takes 1 drum max. size 34cm dia. x 24cm height (13.5” x 9.5”).

Sterilising drum 15cm dia. x 15cm height (6” x 6”).
Sterilising drum 24cm dia. x 24cm height (9.5” x 9.5”).
Sterilising drum 29cm dia. x 14.5cm height (11.5” x 5.75”).
Sterilising drum 29cm dia. x 19cm height (11.5” x 7.5”).
Sterilising drum 29cm dia. x 24cm height (11.5” x 9.5”).
Sterilising drum 34cm dia. x 24cm height (13.5” x 9.5”).

For additional sterilising supplies see Section 2.4

5.10.2 Disinfectors, boiling water type

(minimum of 20 – 25mins boiling time recommended)

Disinfector, capacity 5L, s/s construction
Internal dims. 33 x 19 x 10cm (13” x 7.5” x 4”) Unheated - use with primus stove ER12403P.

Disinfector 6L capacity, s/s construction, 230V AC 1.5kW
Internal dims. 28 x 14 x 15cm (11 x 5.5 x 5.5”) w x d x h.
With perforated lift-out tray. For instruments, gallipots and small receivers. Low water cut out and in-line simmer control.

Disinfector capacity 22L, s/s construction, 230V AC 2.4kW
Internal dims. 51 x 31 x 15cm (20 x 12 x 6”) w x d x h.
For instruments, small bowls, kidney dishes, etc. With perforated lift-out tray. Low water cut-out and simmer control.
Stove, paraffin/kerosene, primus type ........................................................................
Suitable for use with disinfector EZ02301P and autoclaves EZ135L, EZ137L
and EZ139L.

Suction Pumps

Order code

Pump, suction hand/foot/knee operated, for emergency use. ......................... EP01003L
Bottle capacity 400ml. Compact and lightweight, metal frame construction
with solid ABS housing.

Pump, suction ‘Twin’, hand or foot operated, for emergency use. .............. EP01101P
Double bottle model, max. vacuum 600mmHg, total capacity 600ml, lightweight 1kg.
Complete with tubing.

Pump, high suction, 240V AC operation. Single/double 1800ml bottles.
Adjustable vacuum up to 650mmHg, with hydrophobic filter to protect the motor
from contamination. Complete with 10 spare hydrophobic filters.
Suitable for ward and theatre use (not for continuous drainage of body cavities).
Replacement filters and bottles also available separately.

Single bottle, without castors and handle. ......................................................... EP032P
Single 1800ml bottle with castors and handle ............................................. EP032L
Double 1800ml bottle without castors and handle ...................................... EP033P
Double 1800ml bottle with castors and handle ........................................... EP033L

Filters, hydrophobic, pack of 10. ................................................................. EP034P
For suction pumps EP032P/L & EP033P/L.

Bottle, 1800ml, polysulphone, autoclavable. .............................................. EP03401L
For suction pumps EP032/33P & EP032/33L.

Filters, anti-bacterial, pack of 24 ............................................................... EP014P
Bottle, 2L, polycarbonate, autoclavable (bottle only, without lid). ............... EP01501P
5.12 Theatre equipment

Light, operating, mobile, spotlight type, 230V AC or 12V DC
Adjustable height on mobile stand. LED illumination for longer bulb life, reduced power consumption, cool operation and improved colour rendition.
Lamphead mounted on flexible rotating arm for easy positioning and adjustment. Supplied with leads for attachment to a 12V battery for field/emergency use.
Also available:
Spare lamp/bulb 12V 45W type 14588 for new model
Spare lamp/bulb 12V 55W type H3, for previous model (supplied before 2006)

Light, operating, mobile, 230V AC. Also available with integral emergency battery back-up unit. 3 light sources, mounted on an adjustable height, spring-balanced extending reach arm. Total illumination 100,000 lux at 1m. On mobile stand with integral controller and a/s castors.
Mains only operation
Mains and battery back-up
Battery back-up duration 3 hours. Complete with batteries.

Light, operating, ceiling-mounted, with 4 light sources
Reflector diameter 16.5cm; lamphead diameter 55cm. Power: 200W. Light intensity: 75,000 lux. Spot size: 200mm. Bulb life 3000 hours. With basic installation kit consisting of ceiling anchor ring and simple wall-mounted control unit.
Standard mount is for ceiling height of 2.5 - 3.5m. When ordering, please specify ceiling height and height of false ceiling (if applicable).

Microscope, operating, ophthalmic, clamps directly to operating table
Binocular, standard zoom magnification 4x - 17.5x. For extracapsular cataract and intraocular lens implantation as well as a wide range of general ophthalmic procedures. Portable, in aluminium transit case. Suitable for use in a wide range of environments. 110-120 / 220-240V AC and 12V DC battery operation.

Table, operating, major, J4 4-section, hydraulic (foot-operated) height adjustment
With X-ray translucent top, trendelenburg/reverse trendelenburg and lateral tilt movements, chair and back-break movements and 360° table-top rotation. Supplied with 75cm (3") thick mattress. Additional accessories available separately (see below):
Lithotomy supports with sleeves and straps, complete with rotary clamps
Basic accessory set
Comprising: 2 x arm supports, 1 x 'D"-shaped ankle pillow, 1 x patient restraint strap, 1 x narrow arm table, 1 x anaesthetic screen with sleeve, 4 x circular clamps, 2 x rotary clamps.

Table major operating MO30 4-section
X-ray translucent top, split leg section. Hydraulic pump-up height adjustment, with trendelenburg/reverse trendelenburg and lateral tilt movements.
Includes: 1 anti-static mattress, 1 kidney bridge, 2 shoulder rests, 2 lateral supports, 2 lithotomy supports, 1 arm table, 1 head support, 1 douche bowl, 1 body strap, 1 anaesthetist's screen.

Table, operating, minor, portable
Complete with a/s mattress, shoulder rests and lithotomy poles.
Adjustable height 76 - 91.5cm (30 - 36"), collapsible for easy transportation and shipment, weighing only 44 kg.
Orthopaedic surgery

Drill, bone, hand-operated, with universal 0.6cm (0.25") chuck, length 10cm (4")
Complete with 3 bits: 0.25 x 11cm, 0.27 x 10cm, 0.32 x 19.5cm.

EG023L

Drill, orthopaedic battery powered with 0.6cm (0.25") Jacobs chuck and key
Complete with sterilisation case, 220V battery charger, 2 battery packs, and pack of 3 s/s drill bits.

EG025L

Tourniquet for limb surgery with adult cuff 66 x 11cm (26 x 4")
Complete with inflation pump, tubing 1.5m (5ft), pressure gauge and case. Pressures of 0 - 600mmHg can be maintained. Emergency type, manual operation.

EG216P

Tourniquet cuff paediatric 37 x 7cm (14.5" x 2.75")

EG217L

Ward and Theatre Furniture

Bin, pedal type, 12L capacity with inner metal liner

EZ012P

Bowl stand, single, with s/s bowl 35cm diam and antistatic castors

EZ013P

Bowl stand, single, budget type
With 3L s/s bowl, polished base and 5 a/s castors (flat packed).

EZ01301P

Bowl stand, double, budget type
With 3L s/s bowls, polished base and 5 a/s castors (flat-packed).

EZ01302P

Couch, examination, silver stove enamelled finish
Supplied with sockets for lithotomy poles/stirrups (see below). With folding legs for easy shipment. Also available (order separately):

EZ014P

EZ01402L

EZ01401P

Kickabout with s/s bowl

ET120L

Light, examination, mobile, budget model, Anglepoise-type
Adjustable height s/s, column, lamp adjustable for use at any angle. With polished base on 5 castors. 230V AC.

EZ01002P

Light, examination, table-top, Anglepoise
Adjustable lamp for use at any angle. 230V AC. Takes up to a 60W bulb.

EZ01001P

Locker, bedside, metal, s/s towel rail, drawer, cupboard with shelf, 4 castors
Size 48.5 x 48.5 x 88.3cm.

EZ008L

**Ultrasound scanners**

**Ultrasound Scanner HS1500 with general purpose convex probe.**

Compact portable scanner (monochrome), mains/rechargeable battery operation. Weight 6kg approx. Flat 21cm (8.4") LCD screen, with 60-image memory & PC transfer capability. With multi-frequency convex probe 2.8/3.5/5.0MHz.

**Ultrasound scanner HS2000 with general-purpose convex probe.**

Portable scanner (monochrome) with facility for two probes to be connected simultaneously. 60-image memory & PC transfer capability. With multi-frequency convex probe 2.8/3.5/5.0MHz.

**Trans-vaginal probe multi-frequency 5.0/7.5/9.0MHz.**

Suitable for use with EX523L.

**Video Printer, monochrome, suitable for use with ultrasound scanners.**

220-240V AC operation. Produces high-quality images in either standard or zoom modes. Maximum image size 10 x 7.5cm (4" x 3"). Supplied with 10 rolls of high-density paper. Extra paper available separately, as below.

**Paper rolls high density for use with video printer EX534L.**
