Reconditioned equipment

Durbin can source a wide range of reconditioned equipment from external suppliers.

If you would like to place an order or request a quotation for reconditioned equipment, please specify your requirements as clearly as possible, and we will be happy to provide you with a quotation for items which we are able to supply.

Please note that we do not keep reconditioned equipment in stock. Items will be sourced per individual requirements, and offered subject to availability at the time of ordering.

Certain types of equipment may not be cost-effective to supply as reconditioned or may be difficult to obtain as reconditioned. It may only be possible to offer new equipment in these circumstances.

Note

Reconditioned equipment will typically be supplied with 6 months warranty.

We will be happy to help you source spare or replacement parts and to advise in troubleshooting or repair arrangements for equipment supplied through Durbin.
